

ITAR Registration is a means to provide the U.S. Government with necessary information on who is involved in certain manufacturing, exporting and brokering activities. Prigel Machine & Fabrication Inc. is an ITAR Registered machine shop experienced in military and government contract support.

The International Traffic in Arms Regulations (ITAR) is a set of regulations that govern the export and re-export of certain controlled commodities, services, and, most importantly, technologies. In order to be controlled under ITAR as a defense article, a given component, subcomponent, part, assembly, subassembly, or integrated system must have been specifically designed, developed, configured, adapted, or modified for a military application controlled under the United States Munitions List.
